ABOUT US

For more than 35 years, PT Dami Sariwana has been producing the best products from the goodness of Indonesian nature to fulfill the needs and provide good intake for the health of the people of Indonesia and the world.

With modern technology, natural ingredients and highly supervised extraction process we create high quality, tested, hygienic and efficacious products.

Dami Sariwana products have been distributed to all corners of Indonesia and overseas such as **Malaysia, Singapore, Philippines, Nigeria, Somalia, Kenya, Ethiopia, Tanzania, Togo, Uganda, Cameroon, Angola, Oman, Yemen** and other countries.

OUR VISION

Becoming the center of herbal medicine, cosmetics, food and herbal drinks companies that are quality, safe, useful and efficacious for all Indonesian and international communities.

OUR MISSION

01. Producing herbal products that have been tested efficacious and safe based on research results.
02. Contributing to the maintenance and treatment of public health with the best quality herbal products.
03. Continue to innovate in developing herbal products that can be accepted by the Indonesian and international community.
04. Become a reference for the community in choosing quality herbal products that are efficacious and safe for consumption.
05. To become a herbal medicine company that can be accepted by the world community.
06. To be a company that contributes and is oriented towards environmentally friendly.
07. Committed to becoming a herbal medicine company that is trusted by the world community.

Tangerang, Indonesia

2016

PT Dami Sariwana
acquired

2017

PT Dami Sariwana was established in Semarang, Indonesia on January 17, 1989. It was acquired on September 15, 2016 with the aim of expanding product marketing.

To achieve integrated marketing and to provide better service to consumers and customers, the factory was moved to South Tangerang, Banten.

OUR PRODUCTS

In line with the government's program to encourage downstreaming, PT Dami Sariwana has fully implemented the process.

Starting from processing raw materials into high-value and high-quality final products, this step is our commitment to support industrial growth and increase the added value of domestic products.

We have a diverse portfolio of herbal products to cater to different health needs that focus on maintaining and improving people's general health and well-being.

All products are manufactured, stored and transported in compliance with high safety and hygiene standards.

We implement strict Quality Assurance and Quality Control procedures to ensure each product meets the highest and consistent quality standards.

Content Marketing

Producing, and distributing health education content in global languages: English, Mandarin, Spanish, Portuguese, French, Russian, and Arabic.

Social Media Marketing

Develop marketing strategies through infographics and videos, which are increasingly in demand, to expand the exposure of our company and products on social media platforms such as : WhatsApp, Facebook, Instagram, X, LinkedIn and TikTok.

Product Knowledge Training

Understanding of product details, features, benefits and usage and supporting our distributors with product knowledge training, online and offline.
